

**COMFORTLINE: DRIVE WELL, ARRIVE SAFELY**

## 4pets ComfortLine

For the safest transportation of your dog

Going on a getaway adventure in your SUV – Your dog can travel comfortably with you. Taking the estate into town to quickly do the shopping – Your dog can come with you. Going hiking in the mountains with the family – Your dog and your family can sit

safe and snug in the van. 4pets ComfortLine is designed for those who enjoy always having their dog at their side. Appealing and thanks to eight different models perfect in every aspect, for your dog, your car, and you.

**ComfortLine//one**

The small crate that takes the prize! Suitable for small breeds such as Cocker Spaniel, Dachshund, Terrier or Beagle.

**ComfortLine//two**

These crates are ideal for dogs up to medium size such as Spitz, Sheltie or Border Collie. Thanks to its narrow width of 54.5 cm, it fits easily into your car trunk.

**ComfortLine//three**

These are the ideal crates for medium-sized to larger breeds. Due to the Line's width of 68 cm the crates easily provide the space and safety needed - for example for Retriever, Labrador or German Shepherd.

**ComfortLine//four**

These crates are perfectly suited for the safe and comfortable transportation of large dogs such as Bernese Mountain Dog, Hovawart, Rottweiler or Irish Setter.

**ComfortLine//twentytwo**

You have two dogs? No problem, the double crate provides space for two medium-sized to larger dogs. The middle dash panel is removable.

**Technical data**

The technical data can be found on the last page of this brochure.

## Perfect for you and your dog

4pets ComfortLine boxes have been developed by our Swiss engineers in cooperation with professional dog keepers and experts not just to meet your highest expectations about safe and comfortable

dog transportation but to exceed it. 4pets dog-boxes set new standards in terms of workmanship, timeless design, handling as well as safety and product ethics. A 4pets ComfortLine box is a reliable, ingenious

and well-engineered product that is easy and convenient for everyday use.

### Easy-to-close door

The ingenious twist-lock snaps immediately and securely into place. The long locking bar provides additional stability and torsion resistance. The door can be operated with one hand, leaving one hand free to hold the dog in place. The door can be optionally equipped with a corresponding lock, the Box-Lock.

### Stable aluminum frame

Specially developed aluminum bars make the crate particularly stable. The bars are also anodized to prevent rusting. All plastic connectors are fiberglass-reinforced and therefore extremely rugged. Due to the quality precision engineering, the crates won't rattle or make any disturbing noise while traveling by car.

### Strong connection

Fiberglass-reinforced corner connectors are firmly bolted to specially shaped bars. This makes the crate extremely stable.

### Maintenance-free

All parts of the dog crate are maintenance-free. There isn't even any need for oiling, because the door hinges are made of a self-lubricating plastic-graphite alloy. Consequently the dog-box is easy and convenient in everyday use.

### Good air circulation

The crates ensure good air circulation – so your dog enjoys equally good air-quality as in the rest of the vehicle.

### No biting or climbing

The bars on the door and the back are vertical. This prevents dogs from climbing up on them or biting them with their teeth. All parts in the interior of the ComfortLine crates are rounded off to ensure that a dog does not hurt itself.

### Unhindered rear view

Vertical bars on the front and back of the crate allow the driver to see through to the rear window and keep a clear overview in any situation.

### Good grip

To secure the crate in your car, use the supplied tie down straps. Anti-slip strips on the bottom provide additional security.

### Dirt stays inside the dog-box

The side panels protect your car from soiling and dog hair. Your car stays neat and shiny, which preserves the resale value of your vehicle. The floor tray is resistant to urine and acid. The special mat is easy to remove and clean with water. Additionally the dog-box can easily be cleaned with damp cloth.

### Pleasant climate

High-density fiberbord panels ensure good insulation to protect your dog from heat and cold. The panels feature a scratchproof coating.

### Make the best even better

Enhance your dog-box with the high quality range of 4pets accessories. They are designed towards your needs and perfectly match all ComfortLine crates, providing

even more comfort and safety for you and your dog - during each trip.

### Easy Steps

Whether you have a puppy, a fully grown dog or an older dog, Easy Steps enables them to climb in and out of the car effortlessly and painlessly. Easy Steps enables you to protect not only your dog's joints and health, but also your own back as you no longer have

to strain to lift your dog in and out of the car. Thanks to the clever telescopic design with integrated slide prevention, Easy Steps also fits in any boot along with a 4pets dog-box. Weight: 5.4 kg (11.9 lbs), Load capacity: 100 kg (220 lbs). Made in Switzerland.

4pets Easy Steps

4pets Strap Fix

### Box-Lock

Lock your ComfortLine dog-box safely with the corresponding lock.

4pets Easy Steps

### Strap-Fix

Two straps, each with a tension load of 350 kg (770 lbs), secure your dog-box in the trunk. You and your dog have never been better protected. Suitable for all models.

4pets Crash Bag

### Crash-Bag

The innovative Crash-Bag provides additional protection for your dog in case of emergency braking or in an accident. The Crash-Bag is easily attached to the back panel of your dog crate.

4pets Scratch Guard

### Scratch-Guard

Before your dog leaps in and out of the dog-box, simply unfold the Scratch-Guard. The Scratch-Guard protects your car's bumper from scratches and dirt. The Scratch-Guard is compatible with every 4pets dog-box.

## 4pets ComfortLine

Protect what you love

### A good decision

Your dog will feel great. And you can travel with greater peace of mind, because you know that your dog is safe and sound. ComfortLine crates from 4pets excel in every aspect, be it the high stability, the timeless design, the first-class materials or simply

because they are well thought out from A to Z. Most important: your dog is well-protected, which enhances your own safety as well. 4pets dog-boxes, a lifetime decision - Be sure to be safe!

### Swiss Innovation

The 4pets ComfortLine crates are made from high-quality, high-tech materials and conform to strict quality guidelines. 2 years warranty on parts and accessory. With the ComfortLine, Swiss engineers have designed a crate, which sets new benchmarks with regard to

handling, manufacture, design and safety. Thanks to collaboration with expert dog owners and technical experts, many ideas and innovative solutions were included in the development of the 4pets dog crates.

### My Social Engagement

With the "my social engagement" label, consumers and manufacturers express their shared commitment to support people who live under challenging conditions. The principle is simple: anyone who purchases a product or service bearing this label knows

that they are helping to create jobs and training opportunities for people living in difficult circumstances. For more information, visit [www.mysocialengagement.ch](http://www.mysocialengagement.ch).
